AMENDMENT

Sir:

Applicant acknowledges receipt of the Office Action dated September 27, 2002.

In the Specification:

Please replace the paragraph beginning on page 5, line 22, with the following rewritten paragraph:

B1
--The indicator messages sent to the recipients can take a variety of forms. For example, the indicator for an email could include the sender and the subject line only, the first few lines from the message body, or message attributes such as size or importance. Each indicator also includes a reference to the corresponding message that will allow the message to be accessed. The information about sending the message ("message sending information") stored by the MDS system can also take a variety of forms, and can include both information supplied by the sender of the message as well as information generated by the MDS system. In addition, if recipients have previously supplied preference information about receiving indicators
